 Information: 425-556-2392 or www.redmond.gov

- June 21, 7:30pm

City Hall Update

Finally: some visual gratification! Earthwork, site utility and foundation work for Redmond's new City Hall were completed in December 2004, and the first floor concrete slab was poured in early 2005. You will be able to see the building rise out of the ground when the structural steel work begins in March. The building is expected to be completed by December 2005.

Preparation for the parking garage site and related utility work began in February. The perimeter of this construction site has been fenced off to protect public safety. Please visit the City's website at www.redmond.gov for the latest temporary campus access and parking plan. Access will continue to be provided to the Senior Center, and limited short-term visitor parking will once again be available in front of City Hall during this construction. Clear and visible signage will direct visitors to available parking.

Along with the web cam pictures, aerial photographs of the construction's progress will be posted on the City's website at www.redmond.gov. Continue to check the website for the latest information regarding the project.

The Theatre at Meydenbauer Center

11100 NE Sixth Street, Bellevue
